

## ST. LAWRENCE WATERWAYS BILL TO BE BROUGHT DOWN BY GOVERNMENT, SATURDAY

**Rare Opportunity For Students—Cornell Debating Team—First Time At McGill—Great Issue—Vital Importance to Canadians—Complicate International Relations—Literary and Debating Society—Political Gossip Rampant, Feeling Runs High**

McGill students are being offered a privilege when the Cornell debating team, said to be the first American team to come here in the history of the Literary and Debating Society, takes part in the session of the Mock Parliament, Saturday night, to discuss the St. Lawrence Waterways Project. This mighty subject which would involve countless sums of capital and make more intricate international relations, is of vital importance to all especially to Canadians.

J. Grant Glasco, the "Prime Minister," will present the discussion in the following resolution which will be his second reading. Resolved that, "This House hereby affirms its belief in the wisdom, from a commercial and economic point of view, of improving, in co-operation with the Government of the United States of America, the navigation facilities of the St. Lawrence River, so as to permit ocean vessels drawing up to 30 feet of water, to enter and navigate the Great Lakes; and also to undertake, as the necessity arises, the development of the power at present wasting in the rapids of the St. Lawrence. This House furthermore signifies its desire to conclude a treaty with the United States of America, looking to the execution of the project on the basis of Scheme B, of the recommendations submitted by the International Joint Commission, or such modifications as may be agreed upon; and making provision for a Joint Commission charged with the duty of formulating a complete plan which would be subject to the approval of the two Governments, prior to the beginning of the work of construction."

McGill will be represented by J. Grant Glasco, Commerce '25 President of the McGill Canadian Club, C. W. Kelloway, who is doing post-graduate work leading to the M.A. degree, is a first year student in Theology and winner of the Douglas Prize in Oratory in competition with the members of the Co-operating Theological Colleges at McGill; and J. S. Schwisberg, second year Law and representative from the Faculty of Law on the Executive Board of "Old McGill."

The Cornell team composed of Nathan Katz, Ross E. Scanlan, Donald W. Falconer, and J. Grant Glasco, moved to Auckland, New Zealand, when six years of age. Elementary and first two years of high school there. There he won the national Junior and Senior scholarships, and passed the matriculation exam for the University of New Zealand when 14 years old; moved to New York City, where at completion of high school won both the Free Tuition and the New York State scholarship to Cornell, where he matriculated in 1921. Here he won the undergraduate and the Kenney scholarship given to the highest student in the class of 1925. He has taken an active part in debate, dramatics, and he is a member of the Cornell Political, Liberal, Menorah and British clubs. In his junior year he was elected to Phi Beta Kappa.

At present he is studying law in the Law College, having transferred to that college from the College of Arts and Science where he majored in Philosophy.

Katz is possessed of a very keen and incisive mind, which in conjunction with his forceful ability as a speaker makes him an able and skillful debater.

Politically a Progressive.

Ross E. Scanlan

22 years of age; born and educated in Buffalo, graduate of LaFayette High School. He is a member of the British American Club of Delta Sigma Rho. The Owl (a local society for the propagation of debate interest) and of the Cornell Dramatic Club, of which he is on one of the most active members. He is a senior in the College

of Arts and Sciences and is majoring in English literature. He has debated against McGill (last year) Pennsylvania and Cambridge. Politically he is a Democrat. For the last fifteen years he has spent his summers in Canada and he is familiar with the problem of deepening the St. Lawrence from the viewpoint of both Canadian and American.

Scanlan is the most experienced and the ablest of that Cornell team. He is the acknowledged wit of Cornell Debate circles.

Donald W. Falconer, 23 years of age; College of Arts and Science, majors in History; he prepared at Deep Springs, California and University of Chicago. He is a member of the Telluride Association and the Cornell Glee Club.

He has travelled extensively in the West and middle west, having been born in Chicago, where he now lives. Since this is his first year at Cornell he has never before represented Cornell in an intercollegiate debate, but he has shown marked ability in that field in his short stay here.

Politically a Republican

**VITUPERATION OF OPPOSITION.**  
The following article, especially written for the McGill Daily by the member from Chicoutimi, is very descriptive of the government's attitude to the King's most loyal opposition. The Daily assumes absolutely no responsibility for the content.

"A great pity it is indeed that two such figures of fun and landmarks of laughter as the 'Rt. Hon.' Bert Wells and the 'Hon.' Schwisberg are to be removed from the public gaze. However this possibility is almost a reality.

"While responsible citizens and other supporters of the Government have more than their share of tolerance, there are, nevertheless, certain organizations whose public position demands that the authors of scandalous, scurrilous and libelous statements be punished to the full extent of the law, or even more severely.

"The United Canadian College and University journals, Papers, Periodicals and Literary Supplements, Incorporated, is rumored to have instituted proceedings against the two above mentioned members of the opposition.

"Statements were issued by these members in which they so far forgot discretion and good common sense as to question the veracity of reports of highly successful Government meetings in Winnipeg, which were published by one of the local papers. As this news was received directly over a leased wire, and as the said paper is certain of its source of information as of it unbiased and unpartisan nature, the Board of Directors of the paper has placed the case in the hands of its solicitors, the well-known firm of McPartridge, McPartridge, McPartridge and McPartridge.

When interviewed, Mr. McPartridge said, 'I have high hopes that a decision from the bench will impose so severe a fine that not even their graft-fitted coffers will stand the strain, and I feel I am not unduly optimistic when I prophesy Bordeaux as their next boarding-house.'

**OPPOSITION TAPPED WIRES.**  
Chicoutimi, Que., Nov. 20 (Special to McGill Daily).—Proceedings will be instituted by the King's opposition against the member for Chicoutimi for an alleged libelous statement issued by that gentleman here this evening. The content of the statement was learned by an operative of the opposition who was tapping the telegraph wires.

Ottawa, Ont., Nov. 20 (Special to McGill Daily).—The news that a libelous statement had been issued by the government against the opposition has reached here. No action has been taken as yet.

## DR. R. K. YOUNG AT JOINT MEETING

R. A. S. C., Sigma Xi And Physical Societies To-night At 8:15

Dr. R. K. Young, formerly connected with the Dominion Astrophysical Observatory at Victoria B. C., will speak on "Making Discoveries in Astronomy," at the Physics Building to-night at 8:15. The meeting is to be held under the joint auspices of the Royal Astronomical Society, Montreal Branch, Sigma Xi and the McGill Physical Society.

The speaker has worked for several years at the Government observatory where many fine investigations have been carried out under the direction of Dr. Plaskett. The seventy-two inch reflector set up there six years ago is second in size only to the one hundred inch reflector at Mt. Wilson. The lecturer will explain how the spectroscope has proved the greatest instrument for increasing knowledge of the physical conditions and motions of the stars.

After the lecture the annual election of officers of the R. A. S. C. will take place. It will be necessary (Continued on Page Two)

## PHILOSOPHER OF MERIT AT MACCABAEANS

To Be Reunion Meeting of Graduates and Under-graduates

DR. SCHMARYA LEVIN

Dance To be Held Sunday in Venetian Gardens

Dr. Schmarya Levin, an outstanding figure in the Jewish world is to be the speaker at the next meeting of the Maccabean Circle which will be held Saturday evening 8:15 p. m. in the Community Centre of the Shaar Hashomayim Synagogue.

Dr. Levin, who was born in Odessa, Russia in 1866, received his education at the University of Berlin, and later at Basle University. From the outset he took an active interest in Jewish affairs. When elected to the Russian Imperial Duma in 1905, he became the leading protagonist of Jewish rights, and later took a prominent part in the struggle of his race for liberty under Tsardom.

A splendid orator, a brilliant writer and a philosopher of merit, he has always distinguished himself as a fearless thinker. As such, he was soon recognized as belonging to that small but choice coterie of men of affairs where opinions on vital matters are sought after for their clearness of wordly vision and depth of holy thought.

Dr. Levin, however, has other claims to merit. He was an intimate friend of Theodore Herzl, the founder of Zionism and has given his best to that movement, being continually in the forefront of the promulgators of its tenets. At present he is a member of the executive and of the Greater Actions Committee of the World Zionist Organization.

The learned philosopher, who has recently arrived from Tel Aviv Palestine, comes to assist in the Keren Hayesod movement here. His presence in Montreal is considered an opportunity of which it is worth while taking advantage.

The meeting is intended to be a joint one of graduates and undergraduates. It is meant as a sort of re-union whereby all Maccabean graduates who have lost touch of their Alma Mater may once more wander back into the fold, if only for a brief period. Undergraduates, too, are all invited and may bring their friends in fact, the meeting is known open to all the young Jewish folk of Montreal.

The musical programme of the evening is to be supplied by Eddie Gross and Miss Sadie Shapiro who can be relied upon to do their part.

Plans have all been completed for the dance which is to be held on the following evening, Sunday Nov. 23rd. The dance, which is to take place in the Venetian Gardens, is the first in two years, and it is expected that all the pent-up gaiety of the last two years will now be unleashed.

## CO-EDS NOW HAVE UNION FOR DEBATING

'Varsity, Queen's and R.V.C. Are Members

INTER-YEAR DEBATES

Queen's Debaters Meet R.V.C. Saturday In Convocation Hall

That McGill would enter the Women's Intercollegiate Debating Union was decided after some discussion at a meeting of the Delta Sigma Society yesterday. The Union will include McGill, Varsity, and Queens University. Each university will be represented by one officer, elections to take place during the spring term. For the session 1925-26 the president will be chosen from the R. V. C. as McGill was the first to show a decided interest in this matter—the vice-president from Queens, and the secretary from Varsity.

The first of the inter-year debates between first and second years, the subject of which was: Resolved that Capital Punishment should be abolished was held at the meeting. The affirmative won.

There were two speakers on each side, Miss Hasley and Miss Gray, of second year upheld the affirmative, while Miss Blison and Miss Tweedie spoke for first-year on the negative side.

After a very interesting debate the judges—Miss Edwards, Miss Nichol, and Prof. Matthews—decided that the affirmative had won.

The affirmative side discussed the subject first from a moral point of view. Capital punishment was the easiest way out of the difficulty, but it showed no reverence for human life, and only succeeded in brutalizing the public. Instead of this revenge, as it really is, certain treatment should be used, education, as a means of bringing light to the criminal man's life is not at man's disposal. Capital punishment is irrevocable.

If a man is found to be innocent after his execution what can be done about it? It was also claimed to be illogical. One man might set out to kill another and succeed, another man might set out with the same intention but only succeed in wounding him, from which the victim would recover. The first would die, the second would not, yet what is the difference between the two cases simply chance. In former times when (Continued on Page Two)

## FIRST UNIVERSITY CHURCH SERVICE

Will be Held in Union Sunday Morning

Final arrangements are now made for the first University church service of the year, which is to be held in the Union on Sunday morning, and it promises to be interesting inasmuch as some departure from the usual character has been attempted.

While all members of the University are invited to attend, the service itself is wholly in the hands of students, and will be carried out by them. It will be conducted by a student, and the lesson will be read by a student from the R. V. C.

The speaker is a student, Jim Edmond, of Victoria College, Toronto. He has been prominent in University life there for four years, has represented the college on international committees of the Student Movement, as well as taking an active part in local work. But he is better known for his sane and healthy approach to, and interest in, religious life. He will speak from his experience rather than as an authority on any subject.

He is a newcomer to McGill, but is known and liked by many of the students who have met him, and heard him speak at Indianapolis and Elgin House, as well as at the National Conference in Toronto two years ago.

To add to the general attractiveness, special music in the form of both instrumental and vocal solos has been arranged, while members of the choral society are making up the choir.

The service is under the auspices of the S.C.A. and is open to the whole university.

## BLISS CARMEN AND A. R. ORAGE COMING

Distinguished Men Will Lecture to McGill Students

Among the distinguished men who are coming to lecture at McGill University this session are to be Mr. Bliss Carmen, well known as the Canadian poet and author, and Mr. A. R. Orage, editor of the London "New Age."

Bliss Carmen was born in Fredericton, N.B. in 1861, was educated at the Collegiate School, and later took degrees from the Universities of New Brunswick, Edinburgh and Harvard. He went into Journalism, and for some years was office editor of "The Independent," New York. He gave up his position of editor and commenced publishing some of his writings, chiefly consisting of ballads and poems. Since 1892 he has continued writing and publishing poems and ballads, and at the present time, there are comparatively few living writers who have had as many works published as he has.

Bliss Carmen has lectured and given readings before in Montreal, and has been accorded a splendid welcome on each occasion. He possesses a striking personality, and has a rather (Continued on Page Four)

## IMMEDIATE AND MEDIATE KNOWLEDGE

Dr. Ritchie, Principal of Theological College, Speaks

The extensive consultation of a Theological Encyclopedia by those students who are entering upon the study of theology was greatly stressed by Dr. D. L. Ritchie during his lecture to the Philosophical Club last night at Strathcona Hall. The use of such an Encyclopedia is to delimit the territory of a student's Theology and to slim the path which he ought to tread. Dr. Ritchie was continually stating the importance of philosophy for those who are studying Theology, and a knowledge of philosophy in general and modern philosophy in particular. He also mentioned the preoccupation with the study of psychology as interfering with philosophy. He compared the psychology of old days with that of modern days. Today psychology walks the streets while the old psychology was largely academic. The psychology of a religion can never replace philosophy. The knowledge of God is based upon experience. At the close of his lecture the meeting was thrown open for discussion and whereupon Dr. Ritchie, Dr. Caldwell, head of the Department of Philosophy, and several members of the audience took part in a lively discussion on immediate and mediate knowledge. Otto Klineberg, president of the Philosophical Club presided at the meeting. As this was the opening meeting of the year, all those who may feel inclined to become members of this society should do so at their earliest opportunity, as these lectures should prove very helpful to them.

A FRESHIE'S REACTION

Freshies!—Can't you recognize the feeling?—Sophomores! can't you remember when once you too were young?

I, a freshie, leave my home as a wordily full-grown person and strut with full-blown plumage—for I carry a leather loose-leafed note-book and feel the laudatory eyes of passers-by as a "there's-a-McGill-student-look" that commends I reach the gates of old McGill and begin to cringe—I enter the gates feeling like a meek mouse, scuttling up the Avenue, dodging the overgrown feet of sophomores; I clasp my skinny note-book to my heart; and run—I just know they will step on me some day because those sophomores never see me! Freshies, you may deny being mice, but you are nevertheless! College is your trap and the mighty sophomores bait the trap with looks that goad you to murder—can you deny it?

Next year, I shall be revenged! Captain—"Boys, the boat is sinking, is there anyone here who knows how to pray?"

Parson (eagerly)—"I do."

Captain—"All right, you pray; the rest of us will put on life belts. There's one shy."

## MARITIME CLUB TO HOLD BIG MEETING

Dr. W. W. Chipman To Speak next Monday

The Maritime Club revealed a varied and very interesting programme for the near future at the meeting of the executive yesterday in Strathcona Hall. Invitations are in the process of being sent out to the different professors from the Maritime Provinces to attend the meeting on November 24th, at which Dr. W. W. Chipman will speak on "New Lights and Old."

The enthusiasm displayed by the professors has done much to encourage the club and it has been greatly appreciated by the executive. In addition, Harry L. Baseal of Arts '26 is organizing an orchestra for the occasion. It will consist of five pieces, namely, piano, saxophone, banjo and two violins. Mr. Aspler will take charge of it and under his mentoring it will no doubt be a success. His reputation for musical ability is well known around the university.

The purpose of the meeting, at which several Maritime business men have also been invited is to get the men together and acquaint themselves with one another. The Maritime Provinces are well represented in all the faculties and it is up to everyone to attend. A good time is assured. Refreshments will be served at the termination of the meeting.

## DETAILS OF THE HOCKEY RALLY OUT

All Arrangements Complete For Big Dinner

MR. SHAUGHNESSY

Coach, Manager and Veteran To Speak on Prospects

The hockey activities for the coming season will receive a flying start at the Hockey Rally Dinner, which will take place at the Union at 8 p.m. on Saturday evening. The dinner is being held for the purpose of viewing the prospective players and to get them acquainted with each other. The fee is 50c, but an attractive programme is being arranged, which will well be worth the price.

The feature of the evening will be an address by the McGill hockey coach, Mr. Frank Shaughnessy. He will outline the plans of the Hockey Club for the season 1924-25. Quackenhush, the manager of the senior hockey team will also address the gathering. MacMahon a member of last year's senior squad will make a few remarks on the team's prospects for this year. A dinner that is sure to do the hearts of the puck-chasers good will be served.

Hockey is one of the three major sports in the university, and since McGill has not won a hockey championship for twelve years, a special effort must be made to bring a championship to McGill. It is therefore necessary that every man in the university who aspires to make a team turn out, and set the season off in the good old McGill way.

Thanks to the presence of artificial ice in the city, this winter, practices can start much earlier than formerly possible. And furthermore, the fan need no longer fear to see the hockey games of the latter part of the schedule turned into water-polo matches, as happenings of this order are now a thing of the past.

## McGILL'S LYCEUM COURSES TO-NIGHT

Lectures In Cowansville and Ottawa

In the "Heroes Memorial" Assembly Hall at Cowansville to-night Dr. W. Tait, Professor of Psychology at McGill will lecture on "Psychology and Life." This talk is being given in connection with a series of five extension lectures in that town by several prominent local professors.

Another lecture is also being delivered at Ottawa by Dr. Gerhard R. Lomer Librarian at McGill. Dr. Lomer will speak on the development of the handwritten book from the earliest times to the date when printing finally superseded the manuscript, a subject of which Dr. Lomer from his past experience has a unique knowledge.

Theatre Night Executive Starts Revue on the Way

Judging by the enthusiasm on the part of the students as reported by the Theatre Night Executive at a meeting last night the Red and White Revue of 1924 is an assured success. "Bob" Dingman, the General Manager was in the chair and the meeting was carried through in snappy fashion. The chief problem dealt with was whether to stage the Revue as a vaudeville bill or as a musical comedy. After much discussion, it was decided to make it a combination of both, that is, there will be a chor. sketch and several star acts.

Each faculty will stage an act or skit of its own and thus, every department of the University will be represented. "Sid" Pierce, the producer of the show, suggested offering two prizes of twenty-five dollars each, one for the best scenario or sketch, and the other for the best musical hit submitted. Further announcement of the offer will be announced at a later date.

The questionnaire submitted to all men and women on entering the college contained one question reading, "Are you interested in amateur theatricals?" will now be used and lists will be drawn up containing the names of all those who answered the question in the affirmative. These people will be interviewed and their services enlisted.

Basil C. MacLean assured the executive that the Revue will be given sufficient publicity and that the event will be advertised well in advance. It has not yet been decided as to how many performances of the Revue will be given.

All suggestions, skits, scenarios and songs are to be handed in to the respective faculty representative at the first available date but not later than December 20th.

The staff is as follows:—  
General Manager... R. E. Dingman  
Producer... S. D. Pierce

## HART HOUSE STRING QUARTET TO PLAY

Rehearsal at Conservatorium For McGill Students

McGill students will have the opportunity of hearing the celebrated Hart House String quartet of Toronto University on Wednesday Nov. 28th, at 2.15 p. m. in the Conservatorium Hall, when a rehearsal with explanatory remarks will be given.

This organization is composed of four Artists whose outstanding ability on their respective instruments has gained them the approval of the musical world. The personnel of the quartet is Geza De Kozas—First Violin, Harry Adaskin—Second Violin, Milton Blackstone—Viola, Boris Hambourg—Violoncello. The concertists which have already been given in Toronto have received very favourable comment from all the papers, and the formation of the quartet is regarded as one of the most important events that has taken place in musical circles in a long time.

The rehearsal on Wednesday is for McGill students only. It is expected that the programme, will include selections from Beethoven and from Debussy. A fee of fifty cents will be charged for admission.

## HIGHER REQUIREMENTS

In former years about this season, there have appeared in this column exhortations, addressed more particularly to the freshmen, in which they were implored to notice the flight of time, the closeness to examinations. The advisability of hard study was pointed out and the reward of the conscientious worker extolled. But always there was and will be again ghastly slaughter in that Nemesis of newcomers, the mid-term examinations. In the principal's report it was pointed out that of the class which entered in 1920 less than half had graduated in 1924. More recently Dean MacKay in his report drew attention again to the gravity of the situation.

Among our progressive farmers it is a matter of routine to use the greatest care in the selection of seed. To ensure getting the best for their labours, they use fanning mills to secure the largest, plumpest, heaviest and healthiest seed and to get rid of weeds. No hit or miss methods are employed and by rigid elimination of the unfit, the chances for abundant harvests are maximized.

It would be considered foolish to sow inferior weedy seed and then spend time and energy hoeing out the unfit plants. Yet there is a homologous situation existing in this university. Every year we have coming here scores and even hundreds of youths who have managed to get in through our inefficient fanning mill; and a highly trained faculty wastes valuable time in weeding out the unfit. Some repair work is needed—in other words our matriculation standards should be raised.

At this point we leave the firm ground of facts and enter a conjective field. We approach the task with some diffidence. We are unable to offer what we consider a sure panacea but we do believe that our suggested solution has some inherent virtue. We do not advocate more years of preparation. There are financial obstacles to that method which give uneven advantages to those in better financial circumstances.

We believe that a measure of the culture and scholarships of aspiring matriculants to this university—one that would be universal in its application, no matter what course of study is to be followed—is found in knowledge and familiarity of English literature and skill in the use of the English language. These cannot be acquired in a few days before examinations. We submit that, along with the present minimum matriculation requirements, those in English literature and composition should be raised to sixty per cent.

practically any crime was punishable by death, crime was just as common. Illustrations were given by comparing the number of crimes in different states of the American union, some of which had abolished capital punishment and some of which had not. By this it was shown that the death penalty by no means prevented crime.

On the other hand the negative side claimed that the fear of the death penalty was an extremely strong force in preventing crime and that any man would think twice before committing a crime when he knew what the penalty would be. A criminal may take a useful life, then why should this useless one be spared? Also if a man is simply imprisoned he may still do a great deal of harm in trying to escape. Whereas if he has "passed out," he is safely out of the way and can do no more damage to anyone.

Before the decision was made by the judges, the president called the attention of the meeting to the inter-collegiate debate on Saturday evening, with Queen's, and urged that as many as possible be present, with their friends.

**Great Enthusiasm Shown at  
Well Attended Gathering**

The most successful smoker that  
the American Club has held for the  
last three years took place last night  
in the grill room of the Union. About  
forty-five members, representing the  
United States from coast to coast,  
attended, and such great enthusiasm  
was shown that the outlook for this  
year is most promising.

The most important item on the  
programme of the club is the  
Thanksgiving dinner, to be held in  
the Oak-Room of the Windsor Hotel  
on Thursday evening, November  
27th.

Dr. Oertel, professor of Pathology,  
and Mr. A. J. Halstead, U.S. Consul-  
General for Canada, will be present.  
After the dinner there will be dancing.

Tickets for this function are on  
sale now, and may be purchased from  
the following members of the com-  
mittee: L. A. DeRosa, Koff and Le  
Sage, of Medicine, Zoll and Dephore  
of Arts, and Persk of Dentistry. Since  
this will be the event of the season  
for the American Club, every Amer-  
ican is urged to attend.

Plans to interest every American in  
the University in the club were for-  
mulated, and are now under the con-  
sideration of the executive. The sec-  
retary, L. A. DeRosa, then gave a  
report on the membership and gen-  
eral discussion followed on varied  
subjects.

After the president, A. K. Koff  
adjourned the meeting, the club band  
struck up popular tunes and smokes  
and eats were distributed. Many  
acquaintances were formed, jokes

**FRESH-SOPH  
BASKETBALL  
PLANS LAID**

**Faculties Well Represented  
At Meeting Last Night**

**TEMPORARY SCHEDULE**

**Coach Van Wagner Outlined  
Plans For Coming Season**

Faculties were well represented at  
the meeting of the first and second  
year representatives last night, when  
plans were laid for the freshman-  
Sophomore basketball schedule this  
winter. Second year medicine and first  
year dentistry had no representatives,  
but it is expected that they will enter  
teams in the league, and the temporary  
practice schedule was drawn up on that  
basis.

Coach Van Wagner began by explain-  
ing to those present in the reading  
room of the Union the general plan of  
the league. The league was formed, he  
said, to give as many as possible a  
chance to play basketball. For the  
reason there is no limit to the number  
who may attend the practices. The  
league will be divided into two sec-  
tions, the freshmen play in one and the  
Sophomores in the other; then the  
champions of each section will play  
off for the University championship.  
In the meantime an upper class knock-  
out league will be started and the  
winners of this league will play off.  
The winning team will be considered  
class champions. The first two years  
are to be favoured in regard to  
practice hours and so on, since physical  
education is compulsory for them, and  
it is considered that special consider-  
ation should be accorded to them.

The schedule to be drawn up will  
endeavour to give each team one  
practice and one game a week. General-  
ly two teams will have the same  
practice hour, so that each team will  
have a good opposition, and will be en-  
abled to play together and thus practice  
up their combinations. In reference  
to practising and turning out general-  
ly, Coach Van Wagner made the rather  
surprising statement that in last year's  
league, the faculties with the smallest  
registration made the best showing,  
simply because those who were in the  
faculty made a habit of appearing at  
practices regularly. He cited the case  
of Arts, which had probably the largest  
registration, but from lack of interest,  
made a very poor showing. On the  
whole, last year's league ran very  
smoothly and afforded many men the  
requisite practise to try for the re-  
presentative university teams.

A part of the meeting was taken up  
in discussing the eligibility of players,  
to which it is wished special attention  
will be paid. Since this league may be  
considered as a practice league, no  
players who have been awarded their  
M's for basketball may participate.  
Similarly those who are at the time  
playing for any of the four repre-  
sentative teams may not play in these  
games, and cannot play until they  
have been dropped by the coach as not  
developed enough to win places on any  
of these advanced teams.

An unusual situation cropped up  
over the recent changes in the de-  
partment of Pharmacy. Several men  
in that department do not know  
whether they should be classed as  
freshmen or sophomores, since they  
are taking courses in both years. The  
meeting, taking into consideration the  
small number of students in either year,  
decided that Pharmacy might enter one  
team which would play in the freshman  
section. The temporary schedule of  
practices for next week is as follows:—

Arts and 2—Tuesday at 4; Friday at  
1  
Commerce and 2—Tuesday 6.30;  
Friday at 4  
Dentistry and 2—Wednesday at 1;  
Friday at 7  
Medicine and 2—Thursday at 7  
Science and 2—Monday at 7  
Pharmacy and Theology 2—Wed-  
nesday at 7.

This schedule only applies for next  
week, the first practice being held to-  
day, and the regular games starting  
next Friday the 28th. A permanent  
schedule will be published in the Daily  
Shortly.

were told and a most enjoyable even-  
ing was passed.

The club seems to have received a  
terrific impetus and all things point  
to a most successful season. The  
Americans are determined that they  
cut a dash about the University, and  
from the present outlook it seems  
that their ambition will be realized.

**PROSPECTS  
OF BOXERS  
ARE BRIGHT**

**Good Turnout Yesterday but  
More Men Wanted**

**BOXING DUMMIES**

**Tentative Team to be Chosen  
As Basis for Selection**

After days of anxious waiting  
Coach Robinson breathed a high of  
relief at yesterday's boxing class to  
see the two boxing dummies that have  
been on order ever since the boxing  
classes opened.

The Coach states that they are the  
best that can be procured in their  
line, and are a delightful and neces-  
sary acquisition to the training. After  
explaining the features of them to  
the class, he intimated that he will  
demonstrate all punches on them  
Saturday and that all out for practice  
on that date will be taken through the  
deliveries at the bag.

Yesterday there was a splendid  
turnout. Massed skipping was indulg-  
ed in as an opener, followed by imi-  
tation roadwork and shadow boxing  
combined. Lecture on, and demon-  
stration of blows; combination of  
blows, followed by three rounds of  
fast boxing, the lively hour for the  
first round up with each pupil slip-  
ping straight leads and countering  
the evasive work being done in turns.  
Judging from the form displayed and  
the general spirit of the men the  
bouts in the freshmen tournament to  
be held soon, will be well worth  
watching.

The "Open" boxing smoker, in which  
McGill boxers will compete with men  
from other clubs around the city, is  
approaching, and it has been sug-  
gested that a "tentative team" be  
chosen. By this plan, any man who  
man who shows that he is better than  
a member of the team, may win a  
place on the team.

Several of the "old reliable" are be-  
ing given a good run for their money  
in gaining places on this team. Bill  
Adams, the "fighter parson" has not  
yet put in an appearance yet, but it is  
rumoured that he has started train-  
ing privately, and will be out when  
the tournaments begin. He will have  
to meet the opposition of such men as  
Steine, Dixon, and Cope, who was a  
champion amateur boxer before he be-  
came a freshman in Old McGill.

Among the 110 pounders there is  
not so much material. Schleifer, last  
year's intercollegiate champion, at  
this weight, has decided that he has  
not time to compete this year. Levar-  
que has been showing good form and  
with a little experience will be able  
to fill Schleifer's place.  
In the next class, 118 lbs. Cecil  
Brain is working well. The close fight  
he gave Hubbard of Varsity last year  
at the Assault-at-Arms will be re-  
membered and his present form  
seems to indicate that he will be a  
point winner in the coming intercol-  
legiate.

In the 160 and 175 pound class the  
competition does not seem to be very  
great, though there are many who  
would take good showings if they  
would only turn out. McLeod, Mar-  
shall and Hart, of the class below  
these, are going well. McLean who  
did so well last year is not out.

Coach Robinson wants to have the  
initial choice of a tentative team as  
good as possible, and it is absolutely  
essential to have a good turnout at  
the next meeting. He has asked every-  
man that is turning out now to bring  
a friend with him to the next prac-  
tice on Tuesday at 5 in Molson's Hall.  
This will mean a total turnout of  
over a hundred, which he is plan-  
ning to accommodate.

**Only Too True.**

As he calmly sank the white.

Two men were playing tennis  
The courts were rather wet;  
"Sorry old man" the player said  
As he dropped it over the net.

Two men were on a golf course,  
Using words lots worse than bilney  
"Sorry, old man" the player said.  
As he laid a perfect stylin.

Two men hid up at poker,  
The stakes were getting grand.  
"Sorry, old man" the player said.

**S. S. ATHENIA  
WAS VISITED  
BY STUDENTS**

**Prof. Williams and Dr. Nich-  
olson Tropped Toasts**

**STUDENT TOURS**

**Col. Bovey Traced History of  
Transportation on North  
Atlantic**

In the stately saloon of Anchor-  
Donaldson liner, S. S. Athenia, re-  
presentatives of the University were  
entertained at luncheon yesterday,  
and shown through the ship which,  
according to the plans of Guy Tombs  
Limited, will carry student tourists  
to Great Britain and Europe next  
summer.

In proposing a toast to Canada, Dr.  
Nicholson, Registrar of McGill, stat-  
ed that an immigration policy which  
had as its object the bringing in all  
sorts and classes of people indiscrimi-  
nately was not desirable. It would be  
better to train carefully those who  
have already gained admittance. Slow  
digestion of immigrants is preferable  
to opening wide the doors of Canada  
to foreign peoples. Dr. Nicholson said  
that although the Dominion is larger  
than the United States and practi-  
cally the same size as the whole of  
Europe, a great portion of the country  
is inhabitable. However, he contends  
that when Canada has sufficient cap-  
ital for development and sufficient in-  
habitants to carry forward those de-  
velopments, it will compare favour-  
ably with the United States. Referring  
to the natural wealth of the  
Dominion, he stated that, "we must  
learn a lesson from the old world in  
the conservation of natural resources  
to ensure the future prosperity of the  
country". In closing, Dr. Nicholson  
said, "we have come to a point in  
Canada where it is easy for every  
child to secure education. The future  
of the country depends largely on  
that".

Professor Basil Williams of the  
department of History, in proposing  
a toast to "The Tours", pointed out  
that during the past few years there  
has been a decided lack of interest in  
travel on the part of Canadians. This  
he attributes partly to the fact that  
costs of ocean voyages are prohibi-  
tively to the average citizen. But he  
stated that the low prices being  
quoted by transportation companies  
for student tours make it possible for  
a great many to travel who other-  
wise would not do so. He pointed out  
some of the advantages to be gained  
by travel such as broadened vision  
resulting from contact with world-  
famed historical places.

Mr. Tombs of Guy Tombs Limited,  
outlined the proposed student tour  
which will cover over eight thousand  
miles. He contends that the sea is  
no longer a barrier between nations,  
but is an excellent highway for com-  
merce and travel.

Colonel Bovey briefly traced the  
history of transportation in the North  
Atlantic. He stated that, "if we could  
not travel we would all be national  
hermits".

Among those who attended the  
luncheon were: Dr. Nicholson, Pro-  
fessor Williams, Col. Bovey, Mr.  
Tombs, Mr. Wildblood, Puddicombe,  
Gibbony, G. H. Fletcher, Bowman,  
R. C. Common, Anson, Boucher,  
MacMillan, and representatives of  
the University of Montreal.

**DECAY OF A GENTLE CUSTOM**

Whatever charm one time attached  
to the atmosphere of school is some-  
how disappearing now. Colleges are  
too democratic, too much like great  
office buildings. One sees other work-  
ers every day, and recognizes them,  
but one does not speak to them.

And there has passed one custom  
that seemed to us a charming and  
gentle one, of which last kind there  
were ever too few. That is the cus-  
tom of lifting one's hat to a professor.

In the old days, young men were  
taught to tip their hats to professional  
men of standing in the same manner  
they were told to tip their hats to  
women. Nowadays, young men never  
tip their hats to doctors or judges or  
bishops or professors. We shall ex-  
clude here all mention of how they  
greet women.

But it seems to us that with our  
growing democracy in everything we  
have lost a courtesy, a touch of gen-  
tleness that has robbed our actions of  
a charm that once they had. One

## FIRST MEETING OF WESTERNERS

### Smoker Held in Union Last Night

The McGill Western Club held its first meeting and smoker last night in the Music Room of the Union. There was almost thirty members present and many were first year men. President Airey opened the meeting and read a letter from W. L. Stevens resigning as secretary of the club. An election was immediately held and E. B. Frisby of Science '26 was elected to fill the vacancy. The minutes of the last meeting were then read and adopted. J. W. Jardine the Vice President received a message from Sir Arthur Currie stating that he would not be able to be present at the meeting. An election was held for Honorary President and Sir Arthur Currie was elected.

Since there were many new members present it was suggested, and carried out, that each man get up and introduce himself and tell what province he hailed from. It was moved and passed that representative from each faculty be elected to take charge of entertainments and to look up the Westerners in their faculty. The representative elected were: Dwyer-Arts, Commerce-Simpson and Sutherland-Medicine and C. Moody-Science.

The question of a Maritime Western dance was brought up and President Dineen of the Maritime Club told what had been decided by his club. He said that December 16th, had been picked as the date for the dance which was to be held at the Venetian Garden. The charges for tickets is to be three dollars and one-half. These plans were voted on and accepted by the Westerners. It was decided that one hundred tickets would be put on sale and that outsiders would be allowed to buy tickets only after they had been on sale to members for a period to be decided later. H. T. Airey and K. Pate were elected as dance committee of two to co-operate with the committee from the Maritime Club.

The rest of the meetings are to be held as suppers and will be called when some man of prominence from the West can be secured to speak to the club. A fee of one dollar was decided on as dues. It was also suggested that, since there would be a dance next month, there would be no other meeting until after Christmas holidays.

As informal since was held with J. W. Jardine at the piano and then the meeting was adjourned.

## CORRESPONDENCE

The Daily is not responsible for sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE SIDE of the paper ONLY.

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

Nov. 19th, 1924.

The Editor  
McGill Daily.  
Dear Sir:—

May I have the privilege of expressing through your columns, my appreciation of the excellent work of the first year men at the Stadium this fall.

I realize that it was compulsory for them to assist at the football games, but the splendid manner in which they carried out their duties has exceeded all expectation.

The Students' Council has made wonderful headway this year in attempting to solve the different problems of initiation. The rules laid down this year have not only succeeded in curbing many of the rougher and unnecessary indignities which the first year men were forced to suffer in the past, but have utilized his energy so successfully expended in previous years for the good of his University.

I am quite certain after witnessing their work at the Stadium, that the first year men would rather have their initiation in this manner. It gives them a certain degree of satisfaction, knowing that although their work is compulsory, they are at least given the opportunity to aid their college and it also ensures their attendance at the big games.

If rules of this nature were enforced each year for the benefit of the newcomers, they would do away with the rush with its attending dangers of injuries, they would eliminate the need of having to walk on the road, when there is a sidewalk provided for that purpose and many more of the present doubtful rules in force which have been handed from previous years.

We all realize the necessity for having an initiation and if properly carried out it can do a great deal of good. Every undergraduate knows and more especially the Sophomores that the feeling of importance which the majority of freshmen own on their arrival at college, must be diminished, in order to reduce him to a fit state of humility so that he might be better able to associate with his more learned fellow students.

The rule covering compulsory ushering at the football games has been a big step in the right direction, as it not only inculcates in their minds early in their course that they are expected to assist their University whenever possible, but also serves to soothe their conscience in a few years, when they realize how much they owe to their Alma Mater.

The Council has already done a great deal in this connection and they are endeavoring to do more. It they succeed in solving this difficult problem, they will not only earn the gratitude of every freshman, but should receive the fullest possible support from every undergraduate who has the best interests of his University at heart.

Yours sincerely,  
Reg. Henry.

The Editor  
McGill Daily.  
Dear Sir:—

I wish to thank the McGill Daily for its excellent support in the Edmund Burke recital.

The Music Club feels that the great success of its venture was largely due to your help.

At the same time, may I extend my sincerest gratitude to those students who so liberally offered their services as ushers and tickets sellers. We have received many messages of congratulation on the courtesy and efficiency of our helpers. We feel that we have done much towards stimulating an interest in good music in the University, and hope to do far more in the future.

Gratefully yours,  
Lawrence Hart,  
Vice-president  
Music Club.

## NOTICES

(Continued from page Two)

### MACCABEAN CIRCLE

The next meeting of the Maccabean Circle will take place Saturday evening, November 22nd, and will be held in the Shaar Hashomayim Hall. The speaker will be Dr. Schmarya Levin.

As this is a joint meeting of graduates and undergraduates, all students and graduates are invited.

### HOCKEY PLAYERS NOTICE

Every McGill student who intends to play hockey this year should attend the Hockey Rally Dinner at the Union on Saturday night at 6 p.m. Purpose—to discuss hockey plans for the winter. Cost—50 cents per man.

Will all students interested please leave their names written on a note with Miss Oliver at the Union before Saturday noon, in order that Pierre might kill a fatted calf of the proper proportions. All up the puck-chasers!

### INDOOR BASEBALL

An interclass baseball is to start in the near future. It is necessary that all classes intending to take part appoint a representative to be present at a meeting next week. The date of the meeting will appear in the Daily the first of next week.

Gym attendance is given for games and practices, which is always an inducement to men in the first two years.

Players showing up well in this league will find it easy to catch a position on the Reds or Whites, which teams represent McGill in the city league.

### PHARMACEUTICAL SOCIETY OF McGILL

An important meeting will be held at the New Medical Bldg. on Wed. Nov. 26 at 8 p.m. sharp. Business:—Dance Discussion and Basketball talk. New members are asked to be out in force as this meeting is of great importance. Refreshments and smokes in quantity.

### TRACK TEAM ATTENTION

All members of the track team who wish pictures of the team will kindly leave \$2.00 with Miss Oliver at the Union. It is necessary that this money be paid before the pictures are ordered.

### R.V.C. JUNIORS

Will anyone desiring a ticket for the Junior Prom please get in touch with the R. V. C. Junior Prom. Committee representatives immediately? Tickets desired must be paid for by Saturday noon, Nov. 22. Price \$6.00.

unique delivery. His voice is clear and pleasant, and slightly high pitched. His readings are very expressive, although his voice is rarely raised above normal, and despite the fact that he rarely uses any gestures, Bliss Carmen is one of the best known poets of the day, and the fact of his being a Canadian also should be a great incentive to students of McGill to come to his lecture.

Mr. Orage is also well known, but more to Europeans than to Canadians. He is a member of the Gurdjieff Institute, and comes to America in December, and will lecture in different parts of the country. He has written several successful books on modern subjects, but to appreciate him to the full it is necessary to hear him lecture. When one hears him speak, he realizes the remarkable power and personality of the man, his great versatility and his absolute sincerity. His gift of expression makes those who have the pleasure of hearing him, conscious of not only a delightful lecturer, but of a distinct message also.
